

Please share a brief overview of yourself:

Back ground:

I Grew up in a house where we hardly went to church although I was confirmed in church, but that was out of tradition and not because I really understand the reason.

My immediate family, one son and two daughters, is all attending church and we all live a life with God and have a relationship with Jesus Christ.

My hobbies are reading and needlework

Special interest is helping underprivileged people. I also help out at church with these projects. (HMR with Gerda Fouche - Lewensentrum)

Do you understand and agree that "KSA portfolio positions shall be required to acknowledge their commitment to the Statement of Faith of Kairos and must be dedicated to the Lord and successful in their respective areas of Christian leadership. They must wholeheartedly support the core documents of the Mission and Core Values and be able to give their time and resources capacity."

I do understand and agree with the "KSA" position and acknowledge my commitment to the Statement of Faith of Kairos and will be dedicated to the Lord and be successful in my respective area of Christian leadership. I support the documents of the Mission and Core Values and be able to give my time and resources in this capacity.

Please explain why you are interested in becoming a part of the KSA portfolio.

I always wanted to be part of the bigger picture and assist the weekend teams with their journey. I have been part of Kairos Outside now for the last 10 years and been through a few weekends and I feel that I am able to make a big contribution towards making it easier for the other leaders.

How do you think you could benefit and strengthen this ministry?

We at KWR already had our own in house training to assist weekend leaders, OL1, OL2, and specially the table leaders and agape. We made a list of possible problems and how to correct them. We also made notes of what the important areas are and were very successful.

What issues, opportunities and/or challenges do you see as crucial in helping this ministry continue to make an impact?

Kairos not only changes the women of the incarcerated but also the women on the team. Kairos is and will be the number one life changer in the prisons and for their loved ones, all over the world. In South Africa the biggest challenge we have to deal with is the poverty of the loved ones. The reason I am mentioning this is that although the guests want to contribute to the ministry they do not have funds and means to be part of the continuing to make an impact.

What experiences, if any, have you had in serving in the non-profit sector?

To serve on a non-profit ministry is a sacrifice and in the time we are living in today, people do not want to be part of something that does not pay, but I have received more than just satisfaction doing it. I have grown so much in my own spiritual life. Every time I leave a day or weekend doing God's work I come out being more humble.

Provide an overview of your Kairos experience.

When I started at Kairos I did an inside weekend. It was the scariest weekend of all my life, but I felt called to carry on. That was when I started investigating and was asked to help as an angel at a Kairos Outside for KWR. I worked like a slave, but was so happy that I contacted Pat and she gave me the go ahead to be part of the Kairos Outside and that was that. I have been part of this ministry since 2010.

Do you believe you would have full support/understanding from your family of the time and commitment needed to serve

My family encouraged me to go for this and they are all with the program. I really would like to be part of Kairos in a new position if God will allow me to be there.
